

11. TURBOMACHINE

Jiří Škorpík

- 1 Nomenclature and principle of operation
- 3 General classification and applications of turbomachines
- 9 Difference between piston engine and turbomachine
- 10 Classification of turbomachines by stream direction
- 11 Construction features of turbomachines
- 11 Blade, blade passage and blade row
- 12 Internal power output/input of turbomachine
- 14 • Turbomachine stage
- 15 Velocity triangle
- 17 Losses inside turbomachines
- 18 References
- Appendices in Czech
