

13. ENERGY BALANCES OF TURBOMACHINES

Jiří Škorpík

- Energy balance of water turbine 1
- Discussion about water turbine energy equations 2
- Energy balance of pump 3
- Discussion about pump energy equations 5
- Energy balance of heat turbine 5
- Adiabatic expansion inside heat turbine 6
- Polytropic expansion inside heat turbine 7
- Energy balance of turbocompressor 8
- Adiabatic compression inside compressor 9
- Polytropic compression inside compressor 10
- Energy balance of fan 11
- Energy balance of wind turbine 12
- Propellers 13
- References 15
- Appendices in Czech

The article of online continued resource Transformační technologie.
